Company profile:	from virtual ideas to real businesses

stage1 is a business incubator that transforms exceptional, commercially-viable inventions, business ideas and visions into successful businesses.

As a business incubator, stage1 identifies innovative projects, integrates these into its start-up center (enterprise factory) and supports their transformation into business models that can be financed through the capital market. By making seed and start-up financing as well as an extensive range of services available, stage1 creates an environment in which young, innovative companies can thrive. Among the services offered are: office space and infrastructure, diverse support services (legal and tax advice, marketing, public relations, etc.), monitoring of capital markets, advice regarding the selection of the exchange and the right time for the going public.

The main objective of the business incubator is to accelerate their partner companies' (incubees) readiness to enter markets and go public in order to for them to gain the first-mover advantage.
